**Clearwater Analytics.**  
Boise, ID, USA

Dear Recruiter,

I am excited to apply for the Data Analyst position at Clearwater Analytics. With a strong background in data science, statistical modeling, and machine learning, I am eager to contribute my analytical skill to drive data-driven decision-making within your organization. Clearwater Analytics' commitment to delivering innovative investment accounting solutions aligns with my passion for leveraging data to solve complex problems.

My academic background in Computer Science and Mathematics has equipped me with expertise in R programming (tidyverse, ggplot2, tidymodels), statistical inference, and machine learning techniques such as regression, classification, feature engineering, and model evaluation. At The College of Idaho, I have applied these skills in courses such as Multiple Linear Regression, Statistical Machine Learning, and Applied Databases, allowing me to develop and refine predictive models and data visualizations.

Beyond coursework, my internship at College of Idaho involved optimizing Python algorithms for business data visualization, reducing processing time by 40%. I also developed SQL-based reports to support data-driven decision-making in the business department. These experiences have honed my ability to clean, analyze, and visualize complex datasets to extract actionable insights.

I am particularly excited about the opportunity to work with cross-functional teams at Clearwater Analytics, ensuring data accuracy and integrity while providing meaningful business intelligence. I love problem-solving, having a collaborative mindset, and passion for statistical analysis. So, I believe that I'm a strong candidate for this role.

I would welcome the opportunity to discuss how my skills and experience align with your team's needs. Thank you for your time and consideration. I look forward to the possibility of contributing to Clearwater Analytics.

Yours sincerely,

**Rabin K Kalikote**

*President, Coding Club*

*Academic Tutor, Computer Science*

*College of Idaho Class of 2026*
